

**THE VERDICT IS IN CANTINA LAREDO OF
PLANTATION IS "FANTABULOUS"**

Cookie's Corner

August 4, 2005

They're the new Kids on the Block, but in our estimation, they will be around for many many years to come, They are that good.....

As you pass through their front door, you'll find a homey, warm, friendly, yet elegant atmosphere, and when it comes to Mexican Cuisine, this is one of the most upscale establishments you'll ever find, bar none.

Can you just imagine, no matter where you are seated, you'll be as cozy as possible because all their seating is confined to booths.? I just love that, and so will you.

The cuisine is outrageously delicious. Think about indulging in Filet Portobello, which was grilled to perfection, and topped with seasoned grilled Portobello mushrooms and topped with a luscious chipotle Portobello mushroom sauce and Garlic Potatoes.

Their Top Shelf Guacamole is prepared tableside and was outstanding. The Grilled Tuna was beyond outstanding and just melted in your mouth, and it was served with an exquisite chipotle sauce.

Chef Pedro is truly an artist at his trade. Waitress Samantha was an absolute sweetheart, and we cannot say enough about the management team, David, Freddy and Luis (in alphabetical order of course). Eileen and Al were soooooo impressed by the attention that they gave to all of their guests.

Their location is so easy to find and I can guarantee that once you've dined at CANTINA LAREDO, you'll be returning time and time again.

And please, don't even think of leaving before trying some of their specialty drinks, especially the Margaritas, as well as their specialty coffees, also created tableside.

The Bar area is again, second to none, designed with Mexican Limestone that keeps everything nice and chilled all of the time.

AND SO.....

**If you'd like a little rundown of what to eat
How about Chicken Chimichurri Salad
For lunch it's such a treat
An if you're suffering from afternoon Hunger
You've gotta try their
Chicken Poblano Chimichanga**
